

Paulo Osório

Lead Experience Designer

Porto, Portugal - Remote | pauloosorio.almeida@gmail.com | LinkedIn | Portfolio

Product design leader focused on enterprise B2B software, complex workflows, design systems, and practical AI-enabled design operations. I turn messy product and business requirements into clear experiences, while keeping design, engineering, and stakeholders aligned.

STRENGTHS

- Pragmatic problem-solving in complex product spaces.
- Strong bridge between design, engineering, and product leadership.
- Design system strategy, governance, and adoption.
- Mentorship and design direction for mid-to-senior designers.
- Practical AI workflows that improve team efficiency and quality.

WHAT I'M GOOD AT

Product Design Leadership

Enterprise UX

Design Systems

B2B SaaS

UX Research

Accessibility

Design Governance

Stakeholder Alignment

Prototyping

AI Design Ops

IMPACT SNAPSHOT

Design system: ~50 desktop/mobile components, 15 patterns, tokens, Storybook, and a dedicated repository. Governance: weekly reviews, sprint request intake, support channels, designer rotations, and twice-yearly health audits. AI workflows: backlog tickets, design review, context retrieval, folder standardisation, prototyping, and knowledge access.

CURRENT ROLE

● **Lead Experience Designer - Infios**

Mar 2023 - Present - Remote

- Lead product design across enterprise supply chain workflows connected to OMS, WMS, TMS, AI initiatives, and design systems.
- Manage and mentor designers through design direction, sprint support, 1:1s, yearly goals, and professional development.
- Lead the company design system, bridging design and development across component behaviour, accessibility, technical feasibility, and product needs.
- Built and evolved the system from an ageing product UI into a scalable foundation with components, patterns, tokens, Storybook, and governance.
- Created AI-assisted workflows for backlog tickets, design review, context retrieval, folder standardisation, prototyping, and internal knowledge access.

EARLIER INFIOS ROLE

● **UX Designer - Infios**

Apr 2021 - Apr 2023 - Remote

- Designed B2B product experiences for complex logistics and supply chain workflows.
- Helped shape product design culture and process as part of the company's early product design team.
- Used interviews, workshops, surveys, usability tests, data analysis, and design sprints to inform product direction.
- Created wireframes, prototypes, and high-fidelity designs to validate and deliver product decisions.

EXPERIENCE

●

UX/UI Designer - FOURSOURCE

Dec 2020 - Apr 2021 - Full-time

- Designed digital tools for manufacturing and supply-chain workflows in a startup environment.
- Collaborated with product managers, engineers, and operations teams to turn complex processes into usable experiences.
- Created wireframes, prototypes, and high-fidelity UI designs for product development.

EARLIER EXPERIENCE

Graphic & Web Designer, skeeled

Mar 2020 - Nov 2020

Graphic Designer, EATIV

Apr 2019 - Mar 2020

Graphic Designer, Orthos XXI

Jun 2017 - Mar 2019

Foundation in visual design, corporate identity, communication design, web design, illustration, animation, and digital content creation.

EDUCATION & CERTIFICATIONS

UX/UI Design	EDIT. - Disruptive Digital Education - 2020
Master's Degree	Contemporary Artistic Practices - FBAUP - 2014-2016
Accessibility (WCAG 2.2)	Udemy - Jul 2024
UX Management	Interaction Design Foundation - Dec 2022

TOOLS & METHODS
